Feb 27, 1975

Harold Weisberg
Route 8
Frederick Md.

Dear Mr. Weisberg:

Seeing and hearing you on T.V. today, I decided to write to you.

I believe if the truth of the nations situation were gotten to the public it may yet save this nation. J. Edgar Hoover told me he could not commit himself or do anything because of the administration, which existed from F.D.R. to practically now.

I am not a writer nor do I have any money because I was denied the privilege of even going into public because of the knowledge I had the misfortune to acquire in F.D.R. Admiskation.

I feel that you are the person that would not be afraid to undertake this

If you receive this let me know, also if you are interested, and I will write the whole story.

This may sound fantastic but every word I will give to you will only be the truth. The Americans are brain washed Dumb blind and gullible.

Thank you,
Mrs. Louis S. Kephart
